Two universities in Tamil Nadu get new VCs

Chennai, Jan 7: Governor R N Ravi appointed new vice-chancellors for Tamil Nadu Open University (Chennai) and Mother Teresa Women's University (Kodaikanal). Professor S Arumugam from Bharathidasan University has been appointed vice-chancellor of Tamil Nadu Open University, while K Kala from the Kongu College of Arts and Science in Karur has been appointed vice-chancellor of Mother Teresa Women's University. They will serve for a period of three years with effect from the date of assumption of office. Arumugam, who has more than 25 years of experience in teaching and research, is currently serving as director of Centre for High Pressure

Research, department of physics, in Bharathidasan University. He has also held several administrative positions, including the director of the Centre for Distance Education. Kala is serving as the visiting professor in Kongu College of Arts

and Science. She has more than 34 years of teaching experience. She held various positions including regional joint director, Trichy, and principal of NKR Government Arts College of Women, Namakkal, and Government Arts College, Karur.

Adani Solar bags 7 awards at the NCQC 2022

Chennai, Jan 7: Adding another gem to its bouquet of awards, Adani Solar – the photovoltaic manufacturing, and research arm of the Adani Group – won awards at the 36th National Convention on Quality Concepts (NCQC). Honored for excellence in quality assessment, the NCQC has awarded Adani Solar with six excellence and 1 special award. The award ceremony was held at Aurangabad. NCQC, the much-awaited annual award ceremony is organized by the Quality Circle Forum of India (QCFI)

with the purpose of benchmarking and recognizing outstanding improvement projects based on quality assessment across the country. Out of a total of 2,031 contestants who participated from various corners of the country, Adani Solar received the second-highest award and the distinguished award followed by a case study presentation at the event. The case study also showed the thorough details of how the company has been keeping up with its exemplary performance even in complex sectors like cell production,

module quality, module production, et al. Adani Solar is India's first and largest vertically integrated solar company offering services and products across the spectrum of photovoltaics manufacturing. As a diverse organization, it has always systematically followed every standard when it comes to various operations across sectors as per global benchmarks. It is also building the world's first fully integrated and comprehensive eco-system of 10 GW solar PV generation in Mundra, Gujarat.

Britannia Marie Gold, Google to offer digital business skilling

Chennai Jan 7: Britannia Marie Gold's My Startup campaign has successfully run across three seasons, providing funds and skill development for Indian homemakers to embark on their entrepreneurial journeys. In season 2, a partnership with NSDC helped the campaign provide 10,000 homemakers with basic communication skills, financial literacy through access to information and communication technology (ICT), along with micro entrepreneurial skills for social and economic self-reliance. In its Season 3, the Britannia Marie Gold

My Start-up campaign broadened its offerings to help homemakers leverage the internet to grow their businesses. As per the Indian Homemakers' Entrepreneurship Report 2021 with Momspresso, 77% of homemakers who desired to set up their own ventures, considered technology as a key enabler in this journey. One of the highlights of Season 4 is that all participants will have access to Google's WomenWill program, a business literacy initiative with a "how to" curriculum on turning an interest into a business, managing an enterprise, and promoting it

for growth. All participants who complete the learning journey will be awarded a certificate. Amit Doshi, Chief Marketing Officer, Britannia Industries Limited said, "This year, we are happy to collaborate with Google to offer aspiring women entrepreneurs digital business skilling resources aimed at making their startup journeys rich, satisfying and sustainable, with constant guidance and support from us. Together, we really hope to be the wind beneath the wings of many aspiring women entrepreneurs".

MARGAZHI PASURAM - 24

Anru iv ulagam alandhaay adi potri
Senrangun then ilangai setraay thiral potri
Ponra chakatam udhaiithaay pugazh potri
Kanru kunil aaverindhaay kazhal potri
Kunru kudaiyaay eduthaay gunam potri
Venru pagai kudukkum nin kaiyil vel potri
Enrenrum un sevagame eththi parai kolvaan
Inru yaam vandhom irangelor embaavaay

This Paasuram explains the braveness of Sriman Narayanan who previously took the Avathar as Sri Vamanan and Sri Ramar."You took the great avathar as Vamanan and measured the Earth as one feet and the Sky as another feet. We all praise about your divine feet. During the great Sri Ramavathar, you won Ravan and we praise your talents and braveness. Then, in the Sri Krishnavathar, you performed the vadhman of Vathrasawaran who came in the form of calf and Kabhitaswaran, who came in the form of tree. We praise your braveness of your thirukKaram.

During heavy rain, you took the Govardhana Giri in your finger and protected us from the heavy rain. You have the great Vel (a weapon) in your thirukKaram. We all praise your braveness and we all are explaining about that, but still we cannot get your seva. So, please come out and give your great seva to us.

Words and the Meanings:

- Andru Ivvulagam alandhai adi potri : This line in this Paasuram explains about the Vamanavathar taken by Sriman Naraynan previously and who measured the earth for one foot. 'Ivvulagam' means the earth.
- Senrangutthennilangai sendrai : This refers to Sri Ramavathar, who went to Lanka and had a victory over Ravan.
- Kundru Kudayaa Yaeduthai : Sri Krishnar taking the Govardhana giri in his hands to protect the people in Aayar kulam from the heavy rain.

Budget expectations: Plastindia urges to lower import on polymer

Chennai, Jan 7: Plastindia Foundation urges the government to lower the import on polymer and increase the custom duty on finished plastic products in Union Budget 2023-24 to support the domestic plastic industry. Finance MinisterNirmala Sitharaman is all set to present the Union Budget for the financial year 2023-24. Plastindia Foundation is hopeful that the hon'ble Finance Minister will frame the budget keeping in mind the overall growth and development of the entire plastic industry – from raw materials, and converter to machinery manufacturers. Plastindia Foundation's motto is to put the Indian plastic industry on a high growth path – from USD 5 trillion in 2025 to an ambitious USD 25 trillion by 2045. To drive this growth and to make India the global sourcing hub for plastic, Plastindia Foundation wholeheartedly supports the Make in India and Aatmanirbhar Bharat initiatives. However, we need support from the government to make this a reality. The import duty on polymer should be between 5 - 7.5 %. India does not produce enough polymer and import is inevitable.

Import duty on polymer needs to be lowered to make the Indian plastic industry more competitive. Custom duty on the finished plastic product should be a minimum of 20% or more to support the domestic plastic processing industry. The government is focusing on renewable energy, and this presents an opportunity for the plastic industry. However, at present 90% of the components for solar panels and windmills are imported and the products are only assembled in India. To encourage the local manufacturers, the custom duty on the import of components like EVA, back sheet, metal frame, solar glass etc., should be at least 20%. The plastic industry can play an important role in manufacturing EVA and back sheets. To promote industrialization in India, I would also request the hon'ble Finance Minister

to consider the following: Make uninterrupted power available at less than Rs 5 per unit. India has a high electricity rate and power fluctuation is also very high. This rate is at par with the neighbouring countries that makes uninterrupted power available to industries at a low cost. India should have a free labour law however the wages should not be so high that it makes the manufacturing industry globally uncompetitive. Labour law should come under the purview of the Central government and wages across the country – in tier 1, tier 2 and tier 3 cities, should be uniform. GST Government should make land acquisition easy by identifying zones of land that are non-agricultural. Land from those zones should be made available easily without industries having to go through the formality of converting agricultural land to non-

agricultural land. Also, the Government should start a new formula wherein developed land should be made available to industries on long-term leases. This will significantly lower the investment on land and make Indian industries globally competitive. Currently, the price of land is so high that project costs skyrocketed. China is using this formula for a very long time. Easy finance at reasonable interest rates from both banks and NBFCs should be made available to the industry. Compliances should be kept minimum. Also, if there are any technical errors in following these compliances then it should be handled by a separate court. It should not be treated as criminal activity. Overall, we are expecting a budget that is industry-friendly and makes the domestic plastic industry more dynamic and globally competitive.
