

219 waterlogging hotspots identified in Chennai ahead of monsoon

Chennai readies 1,189 machines, 311 boats for monsoon

Chennai, Oct 15:

With the northeast monsoon approaching, the Greater Chennai Corporation (GCC) has kept 1,189 vehicles and machines, 311 rescue boats and more than 1,300 motor pumps ready to tackle flooding across the city. The civic body has also identified 220 relief camps and prepared 110 central kitchens to provide food and shelter to residents during emergencies.

Public Works and Sports Development Minister Aadhav Arjuna reviewed monsoon preparedness across all 15 GCC zones at Ripon Building on Wednesday and directed officials to complete pending flood prevention works and ensure swift response to waterlogging complaints.

Officials said 219 waterlogging-prone locations had been identified across the city. New stormwater drains have been constructed at 93 locations, while work is progressing at 19 others. Water collection and discharge sumps have been installed at 21 locations, motor pumps have been kept ready at 62 locations and other preventive measures have been taken at 24 locations.

Of the 1,669 km of stormwater drains taken up for desilting at a cost of Rs. 22.46 crore, work has been completed on 1,583.62 km. The first round of desilting of 1,07,963 silt catch pits has been completed, while 84,463 pits have been covered under the second round. Improvement works have been completed in 28 of the 33 canals identified for upgrading.

Arjuna instructed officials to continuously monitor desilting of GCC's 44 canals and the Water Resources Department's 12 canals, which carry rainwater into the Kosasthalaiyar, Cooum, Adyar and Kovalam drainage basins. Drones will be used to monitor canal cleaning, road repairs and stormwater drain works.

The civic body has allocated Rs. 22 crore for pothole repairs and Rs 10 crore as emergency funds, with Rs. 5 lakh earmarked for each ward.

For flood mitigation, 676 high-capacity motor pumps, 150 rented pumps of 100 HP capacity and 500 tractor-mounted pumps have been kept ready. Besides, 109 water collection sumps, 36 GCC boats and 275 Fisheries Department boats will be available for emergency operations.

Desilting has been completed in wells at 19 subways and 30 railway cross-drainage channels. Specialised equipment, including amphibious excavators, robotic excavators, super sucker vehicles and tree-cutting machines, has also been deployed or kept ready.

To strengthen flood monitoring, 55 rain gauges and 40 water-level sensors have been installed across the city. Boom barriers have been installed at 17 subways to prevent vehicles from entering flooded stretches.

The Integrated Command and Control Centre at Ripon Building and three regional control centres will function round the clock. A total of 150 personnel will work in shifts to receive complaints through the GCC helpline 1913 and social media platforms.

Officials said 7,182 volunteers, 51 Aapda Mitra volunteers and 721 residents' welfare associations have registered to assist during emergencies.

The Minister directed officials to establish effective control rooms in every zone and coordinate rescue and relief operations on a war footing. He later inspected the Integrated Command and Control Centre and reviewed its monitoring arrangements.

Food and Civil Supplies Minister P Venkataramanan, School Education Minister Rajmohan, Transport Minister A Vijay Tamilan Parthiban, Mayor R Priya, Additional Chief Secretary Gagandeep Singh Bedi, GCC Commissioner G S Sameeran, MLAs and senior officials attended the meeting.

TN targets Rs 1.8 lakh crore loans through cooperative banks

Chennai, Oct 15:

The Tamil Nadu Cooperation Department will organise special loan camps twice a week across the state to achieve its target of disbursing Rs 1.80 lakh crore through cooperative institutions. The camps will focus on providing credit to women entrepreneurs, housing applicants, farmers and other priority sectors.

Under the initiative, special camps will be held every Tuesday to facilitate loans for women's self-employment ventures and housing needs. Separate camps will be organised on Fridays to process loan applications from other priority sectors.

Eligible applicants can visit the camps to obtain details of available loan schemes, verify their eligibility and submit applications along with the required documents.

In addition to regular credit schemes, the department plans to disburse Rs 50 crore in long-term loans to support agriculture and allied activities. Eligible members can avail themselves of loans of up to Rs 30 lakh, subject to the nature of the project and applicable lending norms.

The loans will cover the purchase of agricultural machinery, farm mechanisation, establishment of cold storage facilities, dairy farming, goat rearing and poultry farming. Financial assistance will also be available for post-harvest storage facilities and other agricultural infrastructure projects.

Applicants seeking long-term loans can approach their nearest Primary Cooperative Agriculture and Rural Development Bank (PCARDB).

They must submit recent photographs, identity and address proofs, Know Your Customer (KYC) documents and relevant land mortgage records. Loan approval and the sanctioned amount will depend on eligibility and the proposed project.

For further details on loan schemes and application procedures, the department has advised applicants to contact its WhatsApp helpline at 9884000845.

Fisheries and Fishermen Welfare Minister Srinath welcomed Tamil Nadu Governor Rajendra Vishwanath Arlekar with a bouquet at Chennai Airport on Wednesday following his arrival in the state after being appointed Governor. Chief Secretary M. Saikumar, Director General of Police Mahesh Kumar Aggarwal and senior government officials were present on the occasion to receive the Governor.

Minister orders separate storage of grains, fertilisers

Chennai, Oct 15:

A surprise inspection of a cooperative credit society in Ranipet district on Wednesday revealed that fertilisers were being stored in a godown meant for foodgrains, prompting Cooperation Minister V Gandhiraj to order separate storage facilities for the two commodities across all cooperative societies in Tamil Nadu.

The Minister, who inspected the Primary Agricultural Cooperative Credit Society at Kuminipettai in Arakkonam taluk, questioned officials after noticing fertiliser stocks inside the grain godown.

The Society Secretary explained that the fertilisers had been temporarily unloaded there due to inadequate space in the designated fertiliser storage facility.

Gandhiraj directed officials to immediately shift the stocks and ensure that foodgrains and fertilisers were stored separately. He warned that stringent action would be taken against officials if fertilisers were found stored in grain godowns during future inspections.

During the visit, the Minister reviewed the society's functioning, progress in agricultural loan disbursement, implementation of farm loan waiver schemes and credit assistance extended to Singappen Self-Help Groups.He also asked officials to demonstrate the online loan application process and examined the procedure followed for submitting applications through the computerised system.

Later, Gandhiraj inspected the Kuminipettai Head Fair Price Shop, where he checked the quality and weight of rice supplied to ration cardholders and enquired about the distribution process.

Deputy Registrar (Public Distribution) Sivamani and other officials accompanied the Minister during the inspection.

1,059 flood-prone spots identified across TN ahead of monsoon

Chennai, Oct 15:

Ahead of the northeast monsoon, the Tamil Nadu government has identified 1,059 highly vulnerable locations across the state and made arrangements to evacuate residents to relief centres in the event of severe flooding, Revenue and Disaster Management Commissioner Chandramohan said on Wednesday.

With the India Meteorological Department predicting the onset of the northeast monsoon around October 15 or 16, District Collectors have been instructed to map flood-prone areas, identify the causes of waterlogging and take preventive measures.

The Commissioner said more than 1,000 additional locations where moderate waterlogging could occur had also been identified. District administrations have been directed to prioritise vulnerable areas and prepare evacuation plans wherever flooding cannot be prevented.

In Chennai, flood-prone stretches and locations that experienced waterlogging during previous monsoons have been mapped. Stormwater drains are being desilted, while work to remove water hyacinth and clear obstructions in rivers and other waterways is being expedited. Officials have indicated that major precautionary works will be completed by October 15.

To prevent traffic disruptions, all subways in Chennai will be monitored continuously through CCTV cameras linked to the control room of the Revenue and Disaster Management Department. The Greater Chennai Corporation will also monitor the feeds, while pumps will be deployed to remove accumulated water immediately.

Cameras have also been installed to monitor water flow in rivers and canals, while major reservoirs are being kept under surveillance.

Chandramohan said rainfall data would be received from rain gauges every 15 minutes. The information, combined with reservoir storage levels and water discharge data, would help officials anticipate flooding and alert field teams.

The department is also developing a forecasting system that can identify areas likely to experience waterlogging up to 48 hours in advance.
